Deliverable: Presentation

- Move past the buzzwords: what is it really?
- Motivation, Problem tool solves
- How does it work?
- What you need to do to get started?
  - Dependencies
- What are the opportunities?
  - What does the tool work with?
    - (some of the tools can work together)
  - How can you extend it?

- Demo
- What are the competitors/alternatives?
  - How do they compare?
- Strengths and limitations of tool
- Challenges you faced
- Logistics:
  - Last week of classes
  - Approximately equal amount of speaking by each team member

3

Evaluating Presentations

- You'll evaluation the presentations

  - Content, organization, delivery, visual aids, audience interaction, answering questions, overall quality

- These are mostly for my use to help me understand what you understood

  - Will use to give feedback
  - Not directly tied to a grade

4

Scheduling for Next Week

- Large teams: whole class period
- Small teams: 20 minutes + 5 minutes for questions → need to be on the same day
- Monday: JavaScript/Software
- Wednesday:
- Friday:

Mar 30, 2022   Sprenkle - CSCI397   5
